Some exercises could be improved, especially their structure.
6/3/2016 5:52 PM   View respondent's answers

Some topic did not have exercise. Please help us be more practical.
6/3/2016 5:26 PM   View respondent's answers

The track has alot of content concentrated into one week. Please increase the training period for more hands-on training
6/3/2016 5:20 PM   View respondent's answers

It is ok, gives people with interest the right foundation to build on, maybe what afnog can do is organize dedicated trainings that are in depth, let's say a week dedicated to DNS or LDAP and could be online or however.
6/3/2016 5:15 PM   View respondent's answers

Track instructors were very organized; each lesson/topic/lab fed into another. I had the feel of having configured an "operational" ISP at the end of it all. Thank you and God Bless you all as we go back home to our places of work.
6/3/2016 5:07 PM   View respondent's answers

i think everythink was ok, but it would be more to learn on openldap
6/3/2016 5:07 PM   View respondent's answers

The training was very informative and I learnt a lot from it
6/3/2016 5:04 PM   View respondent's answers

I liked it when i was able to configure a working webmail for the first time, the course content for this track is very good and helpful for the people who would like to improve their ICT career and technical experience.
6/3/2016 4:52 PM   View respondent's answers

I like all tracks but If it will be teached in French, it will be excellent for me as French. Afnog tracks are all interesting and i Will be here in the future to do the other tracks.
